lock your rate for the next 3 years!

“We used the Dodge Scan micro-film estimating system for more than a decade before switching to iSqFt. The difference in production and cost reduction has been dramatic. The total cost is less than half of our previous system, and our production has increased more than 35 percent.”

Jaye Whitmire
Whitmire Decorating / WDC, Inc.

“iSqFt is by far the best thing we have done to improve our bidding process. With a quicker, more accurate take-off and no travel time there is a higher production rate for an estimator.”

Southern Insulation Contractors, LP

“iSqFt is revolutionizing the way we estimate and quote.”

Mike Long
Read Window Products, Inc.

“I reviewed the drawings, read the specs, checked the addenda, worked up my material list and costs right from my desk—all the while I was answering the phone, keeping the shop guys busy and responding to emails. iSqFt is phenomenal!”

Gale Schmidt
Access Ability

PRESENTING the CONSTRUCTION UPDATE ONLINE PLAN ROOM™

Overall Features -

- Application that is easy to learn and use
- 100% online access to prints and specs
- Built to provide new opportunities to both subcontractors and suppliers

ACCESSIBILITY

- Full access to plans, specs, and addenda for public projects within the subscription area
- Available 24-hour a day / 7 days a week from anywhere that the internet can be accessed
- Allows vendors to reach out to general contractors through their Private Construction Offices and request access to bid on their private work

OPPORTUNITIES

- The most comprehensive content, complete with online plans and specs, in each of our markets
- Searchable using keywords, phrases, or CSI codes to filter only the projects that match specific criteria
- Ability to search outside of subscription area at a nominal cost to help uncover additional opportunities
