## FACTS

- Federal OSHA is applying a significant increase on State OSHA agencies to focus more on enforcement and fines for construction industry violations.
- Iowa is seeing a measurable increase in fines in response to the federal quota focus.
- There is an unmistakable trend in Iowa public works projects to incorporate safety qualifications into bidder project criteria, specifications and the selection process.
- Your safety record and history of safety plans, programs and consistent job safe practices are on the public radar screen more than ever before.

## ATTENTION: SAFETY STAFF - ESTIMATORS - RISK MANAGERS - TOP LEVEL MANAGERS

# PROTECTING YOUR PROJECT

**MBI has a simple way for contractors to lessen the likelihood of an accident occurring on their sites, use MBI safety services before and during the construction process. Pricing for these services is a mouse click away. You can choose the number of jobsite visits you want and a list of services included with the price.**

### **Criteria for Safe Projects:**

- Place safety first and put resources to sustain a safe workplace in every project bid.
- Understand and practice the principle that safety pays. It doesn't cost you money. When using this service, the owner will pay for a safe worksite.
- Call upon the MBI member services to assist in implementing a qualified safety program and use the new safety program delivery method called Safety Made Simple – Click 1 - 2 - 3.
